

Preparing for Transplant: Questions to ask your Transplant Team

1. Do I have a choice other than transplantation?

2. What are the benefits and risks?

3. What is the organ and patient survival rates for my type of transplant at this hospital?

4. How many of my type of transplant do you perform each year? How long have you been doing them?

5. When an organ is available for transplant how do you decide who will get it?

6. How long will I have to wait for a transplant?

7. Does the hospital do living donor transplants? Is this a choice in my case?
