

Na MELD application and approvals process

The Liver Special Case Committee provides a fair and neutral review of requests for patient listings and changes to Na MELD scores. Decisions are made based on the information submitted to support the medical need for the patient listing or increased Na MELD score as well as the case presentation. Special case committee members will review the material submitted and hold a teleconference, with the case presentation led by a representative involved in the care of the candidate. The Most Responsible Physician (MRP) may participate in the review meeting for the purposes of presenting the case to the committee however they will not be permitted to vote. The only exception to this rule is if the MRP is an SCC member.

The case presentation provides the physician the opportunity to articulate their request and discuss the patient's urgency. The presentation will follow the layout of the application form. Please ensure the application form is concise, complete and provides as much detail as needed. Incomplete applications will result in a delay in the scheduling of the Special Case Committee review for the patient's case. For non-urgent cases the teleconference will typically occur within two weeks of the completed submission.

Once the Special Case Committee has reached a decision, the transplant program will be notified immediately. Adjustments will be made by TGLN if a higher Na MELD score is approved. Transplant programs will be notified of the Special Case Committee review and decision via e-mail. This notification will be sent to the individual who submitted the request. Upon receipt, transplant programs will have to confirm receipt and verify that the patients listing information is accurately captured in TOTAL.

The Na MELD Score Exception Application Form can be completed in the following ways:

1. Electronically by entering information directly onto the form and emailing, OR
2. Manually by printing the form, entering the information, and scanning the document into email.

Submit a copy of the electronic or scanned PDF to SCC@giftoflife.on.ca
